LearningScopeAnswers.indd   3

3. Which of the following statements about pain in children is true?
   a. Most are overmedicated, especially those hospitalized.
   b. Children tend to be undermedicated.
   c. By the 3rd week of gestation, the neural pathways for pain are present.
   d. Premature infants do not experience pain.
   
9. Which of the following opioid analgesics is generally given for acute rather than chronic pain?
   a. codeine
   b. morphine
   c. oxycodone
   d. fentanyl

10. When administering nonopioid pain medications to children, the nurse knows:
    a. tolerance or the need for increasing medication may occur
    b. interference with bone healing may occur
    c. the combined use of nonopioids and adjuvant medications is never indicated
    d. adverse effects with nonopioids are minimal

Evaluation

1. I can identify three types of chronic musculoskeletal pain in children.
   a. strongly agree
   b. agree
   c. neutral
   d. disagree
   e. strongly disagree

2. I can describe effects of chronic pain on children's growth and development.
   a. strongly agree
   b. agree
   c. neutral
   d. disagree
   e. strongly disagree

3. I can list sequella of recurrent or untreated pain in children.
   a. strongly agree
   b. agree
   c. neutral
   d. disagree
   e. strongly disagree

4. I can summarize pharmacologic strategies for managing chronic pain in children.
   a. strongly agree
   b. agree
   c. neutral
   d. disagree
   e. strongly disagree

5. The objectives relate to the overall goal of the article.
   a. strongly agree
   b. agree
   c. neutral
   d. disagree
   e. strongly disagree

6. The article is well-written and logically organized, and defines terms adequately.
   a. strongly agree
   b. agree
   c. neutral
   d. disagree
   e. strongly disagree
