

Learner Feedback Questions #334

- After the campaign to eradicate the polio virus globally in 1988, how long did it take to meet this goal?
 - 6 years
 - 10 years
 - 17 years
 - 22 years
- The primary reason for the length of time it took to eradicate polio was:
 - insufficient supplies of vaccine
 - lack of caregivers to administer vaccine
 - poorly planned education programs
 - one disaffected partner in one nation
- Kantor attributes the increasing awareness about global health to:
 - increased epidemics post disasters
 - wireless communication, especially the Internet
 - increased effectiveness of the World Health Organization
 - lowering of the poverty level in Third World nations
- Nurses are less likely to have cultural stereotypes about patients if they (select the best answer):
 - have traveled out of the country
 - have taken a college course on cultural diversity
 - are familiar with more than one language and culture
 - work in urban healthcare facilities
- Working or studying in another country:
 - is similar to displacement in a community, within the same country, if the community differs from the person's experiences
 - causes extreme stress and 60 percent of those who relocate return to their country of origin within the year
 - increases an individual's egocentrism
 - highlights the cultural differences among individuals and slows the transition to the new country
- The global in "global health" refers to:
 - location of the problem
 - scope of the problem
 - potential for epidemic proportion
 - availability of financial and human resources
- The Millennium Declaration, signed by 189 nations in 2000, agreed to eradicate extreme poverty by:
 - 2010
 - 2012
 - 2015
 - 2025
- Global health differs from international health in that it:
 - does not include domestic health issues
 - attempts to adapt healthcare practices to local/home country areas
 - remains within the boundaries of the biomedical definitions of health, disease and injury
 - for now integrates the international biomedical model, with the intent in 2015 of transforming to a multidisciplinary model
- Which of the following is NOT an MDG?
 - combat HIV/AIDS, malaria and other diseases
 - achieve universal primary education
 - increase screening for mental health disorders
 - promote gender equality and empower women
- The MDG to reduce infant mortality, between 1990 and 2015, is to reduce it by:
 - two-thirds for those under age 3
 - 90 percent for those under age 2
 - two-thirds for those under 5
 - 50 percent for those under 2

Evaluation

- I can identify three reasons global health matters.
 - strongly agree
 - agree
 - neutral
 - disagree
 - strongly disagree
- I can describe two differences between international health and global health.
 - strongly agree
 - agree
 - neutral
 - disagree
 - strongly disagree
- I can identify three MDGs directly related to health.
 - strongly agree
 - agree
 - neutral
 - disagree
 - strongly disagree
- The objectives relate to the overall goal of the article.
 - strongly agree
 - agree
 - neutral
 - disagree
 - strongly disagree
- The article is well-written and logically organized, and defines terms adequately.
 - strongly agree
 - agree
 - neutral
 - disagree
 - strongly disagree
