

2010 Continuing Education RESOURCE DIRECTORY

ADVANCE is pleased to offer you our fourth annual Continuing Education Resource Directory. Please refer to the category key before perusing this alphabetical listing of continuing education providers. Beneath each listing, you will find the keys for the types of educational opportunities the provider offers.

There are numerous CE providers who advertise their courses in the *ADVANCE* biweekly calendar. This directory includes provider and contact information from only those who returned our questionnaire asking them to describe their areas of expertise.

We encourage you to clip and save this directory if you are interested in earning CE credits and degrees, or just expanding your knowledge through the variety of products and classes represented.

You can contact these providers to find out where and when they are offering their 2010 courses and plan your continuing education year, or to take advantage of the many providers who bring their services to you through distance learning and online instruction.

We hope you find this a useful tool in keeping up with your credits.

- 12-week courses, 4 terms per year
- Independent practicums
- 9 MSN credits in BSN

I WANT TO MAKE A DIFFERENCE

For his practice-based dissertation, Dr. Lamprecht researched Sudden Cardiac Arrest in adolescent athletes and designed a screening program to be used during routine sports physicals to identify adolescents with risk factors associated with sudden cardiac arrest.

"Implementation of this research has already identified nearly 29 adolescents at risk in Southern Nevada," said Dr. Lamprecht.

Take **YOUR** career to the next level with Touro University Nevada's online Doctor of Nursing Practice degree.
