Learner Feedback Questions #338

1. Unit-based research begins with:
   a. conducting a pre-study literature search
   b. a bedside nurse asking a clinical question
   c. determining whether there is sufficient interest to conduct a study
   d. identifying resources for the study

2. The key to receiving literature from a database search is to:
   a. use resources related to quality management and measurement
   b. use only academic databases
   c. identify the key words that will drive your research
d. consult an experienced clinical researcher

3. In gathering evidence for the literature review, references utilized should have publication dates within:
   a. 1-2 years
   b. 3-5 years
   c. 5-7 years
d. <10 years

4. Critiquing and grading evidence is:
   a. not required in bedside research
   b. done by the principal investigator for the study
c. a skill set that is honed with repetitive use
d. generally of high quality if published in a peer-reviewed journal

5. Qualitative research includes:
   a. narratives
   b. statistics
c. randomized control studies
d. case control studies

6. Which of the following statements about journal clubs is NOT true?
   a. Members should all be at the same experience/knowledge level.
b. Utilizing online technologies to reach a larger number of staff can be effective.
c. Sharing literature and honing critiquing skills can be done in journal clubs.
d. Journal clubs help to gather teams around an issue.

7. The role of the nursing research council in unit-based research is to:
   a. take on the role of an institutional review board
   b. ensure research conducted is ethical, publishable and adheres to the hospital's goals
c. be the final approver for the research study
d. evaluate the progress of the research study to ensure the research design is followed

8. Completion of the research appraisal should answer three critical questions. Which of the following questions is NOT one of these questions?
   a. Was sound science used to obtain results? (validity)
b. Are the results meaningful and reliable? (reliability)
c. How will the study results be disseminated? (accessibility)
d. Are the results applicable to my practice? (applicability)

9. Many sources recommend utilizing a template for writing research questions. Using the PICO template, the “O” stands for:
   a. operational
   b. outcomes
c. ongoing
d. open-ended

10. Ethnography in research:
    a. used in quantitative research
    b. focuses on a culture to understand their worldview
    c. relates to the study being culturally diverse
d. explores the lived human experience

Evaluation

1. I can describe resources to perform a literature search.
   a. strongly agree
   b. agree
c. neutral
d. disagree
e. strongly disagree

2. I can identify considerations when critiquing evidence.
   a. strongly agree
   b. agree
c. neutral
d. disagree
e. strongly disagree

3. I can examine the steps necessary for a change in clinical practice.
   a. strongly agree
   b. agree
c. neutral
d. disagree
e. strongly disagree

4. The objectives relate to the overall goal of the article.
   a. strongly agree
   b. agree
c. neutral
d. disagree
e. strongly disagree

5. The article is well-written and logically organized, and defines terms adequately.
   a. strongly agree
   b. agree
c. neutral
d. disagree
e. strongly disagree
