

Learner Feedback Questions #375

- A University of Chicago research study found a substantial number of older adults engage in some form of sexual activity into their:
 - 50s to 60s
 - 60s to 70s
 - 70s to 80s
 - 80s to 90s
- Under the Nursing Home Reform Act of 1987, LTC residents are entitled to express themselves sexually as long as all of the following conditions are met EXCEPT:
 - the sexual activity is done in private
 - the sexual activity is consensual
 - there is a signed consent by the partners' family or guardian
 - there is no harm involved with the sexual activity
- Which of the following organizations laid the groundwork for the policies that are the standard of care for sexual activity in LTC?
 - Eden Alternative
 - Pioneer Network
 - Hebrew Home, Riverdale, NY
 - Veterans Affairs LTCs
- Which of the following measures is not included in the standards of care related to sexual activity in LTC?
 - always knock before entering the room
 - remind residents masturbation is not an acceptable behavior
 - refrain from negative or verbal expression if staff observes residents engaged in sexual activity
 - provide residents with items they request for a satisfying sexual experience
- Transference related to sexual activity among LTC residents is exhibited by:
 - residents involved in promiscuous sexual behavior
 - a resident making sexual advances to another resident or staff, reminds them of someone they were attracted to in the past
 - residents want no contact with opposite-gender residents
 - residents who have dementia
- If two LTC residents with dementia engage in sexual activity, the best action is to:
 - observe the residents every 15 minutes
 - follow the institution policy which usually disallows this situation
 - call the physician immediately
 - discuss the situation with the physician staff and family in a team meeting
- When LTC residents have a sexual relationship, the nurse's best judgment is to:
 - inform the family immediately and document it on the medical record
 - ensure the residents are both consenting to the activity
 - make sure there is a physician's order permitting the activity
 - ignore the behavior
- LTC patients with mental illness may exhibit hypersexuality. This occurs most commonly in patients with:
 - schizophrenia
 - mania
 - anxiety disorders
 - dissociative disorders
- Patient teaching with LTC residents before they have sexual activity in the facility includes all of the following EXCEPT:
 - medication side effects with sexual activity
 - risk factor of STDs, including HIV
 - the hours that sexual activity is permitted in the facility
 - policies related to sexual activity in the LTC
- Staff devalues LTC residents most in situations related to sexual activity when they:
 - view all residents as being asexual
 - set limits if necessary for sexual behaviors
 - refuse to comply with the facilities' policies related to sexual activity in the facility
 - are uncomfortable answering residents' questions related to sexual activity

Evaluation

- I can describe a realistic view of sexuality in older adults.
 - strongly agree
 - agree
 - neutral
 - disagree
 - strongly disagree
- I can list ways nurses can facilitate the expression of sexuality among long term care residents.
 - strongly agree
 - agree
 - neutral
 - disagree
 - strongly disagree
- I can take appropriate action if a long-term care resident's action merits intervention.
 - strongly agree
 - agree
 - neutral
 - disagree
 - strongly disagree
- The objectives relate to the overall goal of the article.
 - strongly agree
 - agree
 - neutral
 - disagree
 - strongly disagree
- The article is well-written and logically organized, and defines terms adequately.
 - strongly agree
 - agree
 - neutral
 - disagree
 - strongly disagree
