1. Some students are more prone to cheating than others. Which of the following students would you least suspect of cheating?
   a. weaker student
   b. student normally on the honor role
   c. student involved in many extracurricular activities
   d. student who does not relate well to the subject matter or the teacher

2. Teachers, parents and friends of students prone to cheating can help them to look at cheating from a different context. This is called:
   a. refraining
   b. reframing
   c. reforming
   d. retraining

3. The following are ways of reframing cheating EXCEPT:
   a. cheating is a form of lying
   b. cheating impacts cheaters in the long run
   c. cheating puts the focus on learning to be a better student
   d. cheating takes away the process of learning and emphasizes the grade

4. A copyright is everything EXCEPT:
   a. a legal device
   b. a way to give the creator the right to control how the work is used
   c. a requirement that ensures that the creator gets paid every time his or her idea is used
   d. an agreement used for works of art or literature, or a work that conveys information or ideas

5. If a passage is above and beyond anything else written or otherwise produced, it is considered:
   a. creative
   b. original
   c. tangible
   d. not copyrighted

6. What is it called when a student uses the essential ideas of the original material but changes its style and grammar?
   a. copying notes
   b. citation confusion
   c. paraphrasing
   d. not being able to find the source

7. When is it OK to NOT reference an unoriginal idea?
   a. if you don’t actually quote the writer
   b. if you mixed your own ideas and those of the sources when you were taking notes
   c. when it has been used so frequently it is difficult to tell whose intellectual property it came from; this is also known as common knowledge
   d. when you couldn’t find the bibliographic information of the source because you neglected to write it down when doing your research

8. Internet references also must be referenced. The following is true about Internet referencing EXCEPT:
   a. everything you read on the Internet is true
   b. one simple way to determine if a work is copyrighted is to look for the copyright symbol (©)
   c. always check to see if the author or organization provides information on how to reference the work posted
   d. if you don’t see an individual named as the author, the author may be the organization responsible for the website, so credit the organization

9. The real skill of writing a good paper is in all of the following EXCEPT:
   a. making sure you list complete citations for your notes
   b. researching thoroughly and preparing complete notes
   c. making a habit of waiting until the last minute, as long as you complete the assignment on the predetermined date
   d. thinking of the project in sections and then completing each section as if it were an individual assignment

10. Which of the following is NOT a reason to stop plagiarism and cheating?
    a. it devalues work and undermines credibility
    b. students can get higher grades and look better academically
    c. it helps build better students and well-prepared professionals
    d. students acquire the knowledge needed to become successful professional nurses
