1. The major food pathogen that continues to be on the rise as a culprit of food poisoning is:
   a. E. coli
   b. Salmonella
   c. Listeria
   d. Enterobacter

2. The Food Safety Modernization Act is a health monitoring system associated with the:
   a. FDA
   b. CDC
   c. San Francisco Department of Health
   d. American Diabetes Association

3. Fungal pathogens are commonly introduced into food via:
   a. water sources
   b. soil additives
   c. livestock feces
   d. innate plant spores

4. Private well water is now found to be safer than some municipal water supplies due to:
   a. local control of mandated additives for purification
   b. water tables too low for contamination through soil
   c. individual water testing on a fairly regular basis
   d. typical fluoridation practices county-to-county

5. More people are hospitalized each year from foodborne illnesses from which pathogen:
   a. E. Coli
   b. Salmonella
   c. Listeria
   d. Enterobacter

6. A significant source of concern when ingesting tainted food is that many contaminants:
   a. become virulent for all people
   b. are absorbed by oral mucosa
   c. lay undetected for many months
   d. look and smell like normal food

7. A common symptom of many foodborne pathogens is:
   a. headache
   b. skin rash
   c. diarrhea
   d. paresthesia

8. Animal immunizations are encouraged to prevent the spread and contamination of meat by which organism?
   a. Shigella
   b. Entamoeba histolytica
   c. Listeria monocytogenes
   d. Shiga-toxin producing E. Coli

9. The most common treatment recommendations for typical foodborne illnesses are:
   a. cillin-based antibiotics
   b. antiviral agents
   c. fluid replacement
   d. antipyretics

10. Recommendations from the CDC for storing, preparing and cooking foods include:
    a. using raw, natural milk and dairy products
    b. refrigeration of food between 45° F and 48° F
    c. eating from healthy public/school salad bars
    d. washing hands and food preparation surfaces often

**Evaluation**

1. I can describe the health risk of food, soil and water pathogens that cause foodborne illnesses.
   a. strongly agree
   b. agree
   c. neutral
   d. disagree
   e. strongly disagree

2. I can discuss the pathogenesis of the primary foodborne organisms.
   a. strongly agree
   b. agree
   c. neutral
   d. disagree
   e. strongly disagree

3. I can provide potential resources for prevention and treatment of foodborne illnesses.
   a. strongly agree
   b. agree
   c. neutral
   d. disagree
   e. strongly disagree

4. The objectives relate to the overall goal of the article.
   a. strongly agree
   b. agree
   c. neutral
   d. disagree
   e. strongly disagree

5. The article is well-written and logically organized, and defines terms adequately.
   a. strongly agree
   b. agree
   c. neutral
   d. disagree
   e. strongly disagree
